THE BRITISH COLUMBIAN.

NO. 72. VOL. 8.] NEW WESTMINSTER, WEDNESDAY OCTOBER 21, 1868. [PRICE 6d. or 12 cts.

THE JOURNAL is the oldest newspaper published in British Columbia; is read by every business man from New Westminster to the Rocky Mountains, and is unrivalled as an advertising medium for this Colony.

DAVID SPENCER, in Victoria, and L. P. FISHER, in San Francisco, are our authorized Agents.

This paper may be read gratuitously in London at the Central Establishment of "HOLLOWAY'S PILLS AND OINTMENT," 244, Strand, where advertisements and subscriptions for the same are received.

The British Columbian.

WEDNESDAY, OCTOBER 21, 1868.

TO THE ELECTORS OF THE DISTRICT OF NEW WESTMINSTER.

FELLOW COLONISTS,—Once more you are called upon to select a Member to represent you in the Legislative Council of British Columbia; and I again offer myself as a Candidate for that important position. When last I sought your suffrages the country had just passed through important organic changes, and the affairs of the United Colony were administered from New Westminster, under a system in some respects new and untried. I confess that the hopes which I entertained at that period have not been fully realized. The measure of retrenchment in the expense of administering the affairs of the country which circumstances appeared to demand, and which the people were led to expect, has not been attained; nor has the Government evinced that disposition to popularize existing institutions, to administer in accordance with the well-understood wishes of the people which many were led to expect. In some instances useful legislation has been prevented, and pernicious measures passed by the preponderating official element in the Legislative Council, an element which renders the voice of the people perfectly powerless in the only legislative body possessed by the country. The political institutions of the Colony have failed to meet its wants, and the unhappy results are now manifest in the widespread discontent and earnest desire for change which pervade the entire community. The past two years have not been altogether unmarked by change. The efforts of myself and those who acted with me in the Legislature failed in preventing the perpetration of one of the most glaring wrongs ever committed upon British soil, involving a gross breach of faith on the part of the Imperial or Colonial Government or both. The Seat of Government was removed under color of a legislative vote and carried away on to an Island, to the great inconvenience of the Mainland portion of the Colony, and under circumstances but too well calculated to weaken public faith in the honor and integrity of the Government. Confederation, the all-absorbing question of the day, has not made that happy progress which many were led to expect. The vacillating and inconsistent policy adopted by the Imperial Government still leaves the great country lying between Canada and our own boundary a barrier to that admission so earnestly desired by an overwhelming majority of our people. No practical or really beneficial union can exist between this Colony and Canada until the intervening territory shall have first been transferred to the Dominion. Although a stranger to the unmeasured enthusiasm with which some appear to approach this subject, I am disposed to regard Confederation as the most effective and ready means of obtaining a liberal and economical form of Government; and I am also disposed to consider it as offering the only effective medium for introducing a permanent population into this Colony. Entertaining these views, I shall ever feel it a duty alike to my Sovereign and to this my adopted country to assist in every constitutional and well-directed movement calculated to hasten the extension of Confederation to the shores of the Pacific, upon such conditions as the geographical position and great natural resources of British Columbia entitle us to expect. Nor shall the more immediate interests of this most important District be overlooked. I shall watch, as I have watched in the past, the progress of development in its agricultural, metallic, forest and marine wealth, and endeavor, with the most vigilant care, to promote every measure calculated to protect and build up productive industry. There are many other questions upon which, under other circumstances, a candidate would naturally be expected to touch; but I trust the fact of my views upon every public question being already so well known to you will obviate the necessity for extending the present address. It is probable that I shall have an opportunity of meeting many of you personally before the day of election, when I may take occasion to enter more fully upon the various political topics of the day. Should you do me the honor of again selecting me as your Representative I shall cheerfully submit to the inconvenience of attending a Session held at a place very remote from the Mainland, in the belief that it may be in my power to render some material service to this interesting young Colony and to those with whose confidence and support I have been honored in the past. Should I receive a unanimous nomination the circumstance will not only be gratifying to me personally, but it will, by increasing my influence in the Legislature, increase my ability to promote your interests.

I have the honor to be,
Fellow Colonists,
Your obedient Servant,
JOHN ROBSON.

New Westminster, Oct. 9th, 1868.

THE KING OF BAVARIA kindly permitted Doct. J. C. Ayer to have a copy taken of Rauch's celebrated colossal statue of Victory, which belongs to the Bavarian crown, and stands at the entrance of the Royal Palace at Munich. The Doctor had it cast in bronze, and has presented it to the city of Lowell, where it stands in the Park and symbolizes the triumphs both of freedom and medicine. Her manufactures are the pride of Lowell, and foremost amongst them AYER'S MEDICINES make her name gratefully remembered by an unnumbered multitude who are cured by them of afflicting and often dangerous diseases.—Boston *Journal*.

HOLLOWAY'S PILLS.—Enfeebeled Existence.—This medicine embraces every attribute required in a general and domestic remedy; it overturns the foundations of disease laid by defective food and impure air. In obstructions or congestions of the liver, lungs, bowels or any other organ, these Pills are especially serviceable and eminently successful. They should be kept in readiness in every family, as they are a medicine without a fault for young persons, and those of feeble constitutions. They never cause pain or irritate the most sensitive nerves or most tender bowels. Holloway's Pills are the best known purifiers of the blood, and the best promoters of absorption and secretion, which remove all poisonous and obnoxious particles from both solids and fluids.

S.T-1860-X.

A great French Physician says: "More than half the disease in the world comes from neglect to fortify the system against changes of climate, weather and food. The great secret of health is to keep the condition of the Stomach and Blood regular and uniform, so that changes from Heat to Cold, from Dry to Damp, etc., cannot upset the machinery of the Body, and breed disease." Now, it is a fact, positive and well known, that there is no such bulwark and assistant for the Stomach as

PLANTATION BITTERS.

This splendid Tonic is now used by all classes of people for every symptom of a "Stomach out of order." The secret of it is this: Plantation Bitters are certain to correct the Juices of the Stomach, set all its machinery at work, and enable it to resist and throw off the approaching danger. The tendency of the operations of Nature is always towards a cure; all she needs is a little assistance at the proper time. How much more reasonable and sensible it is to help her along with a gentle yet powerful Tonic, than to deluge and weaken and derange her curative processes with poisonous drugs and fiery mixtures which only stupify and plant the seeds of disease and death.

Important Certificates.

"* * * I owe much to you, for I verily believe the Plantation Bitters have saved my life.
REV. W. H. WAGGONER, Madrid, N. Y."

"* * * Thou wilt send me two bottles more of thy Plantation Bitters. My wife has been greatly benefited by their use. Thy friend, ASA CURRIN, Phil., Pa."

"* * * I have been a great sufferer from Dyspepsia, and had to abandon preaching. * * * The Plantation Bitters have cured me.
REV. J. S. CATHORN, Rochester, N. Y."

"* * * I have given the Plantation Bitters to hundreds of our disabled soldiers with the most astonishing effect.
G. W. D. ANDREWS,
Superintendent Soldiers' Home, Cincinnati, O."

The Plantation Bitters make the weak strong, the languid brilliant, and are exhausted Nature's great restorer.

The public may rest assured that in no case will the perfectly pure standard of the PLANTATION BITTERS be departed from.

Every bottle bears the fac-simile of our signature on a steel plate engraving, or it cannot be genuine.

Any person pretending to sell PLANTATION BITTERS *in bulk or by the gallon, is a swindler and imposter. Beware of refilled bottles. See that our Private Stamp is* UNMUTILATED *over every cork.*

Sold by all Druggists, Grocers and Dealers throughout the world.

Agents for California and Nevada.

FLEAS.

LYON'S MAGNETIC INSECT POWDER is sure and certain death to everything of the Insect species—Fleas, Roaches, Mosquitos, Ants, Bugs.

IT KILLS INSTANTLY.

What is peculiarly surprising in regard to this article is, that notwithstanding its instant death to insects, it is perfectly harmless to mankind and domestic animals. It can be inhaled or eaten with impunity. It bears the testimony of eminent disinterested chemists that it is

FREE FROM POISON.

No article has ever given such positive satisfaction in its use.

Its reputation is well known. It is easily and readily used—Directions accompany each flask. Beware of counterfeits.

The genuine has the signature of E. LYON, and the private stamp of DEMAS BARNES & Co. Anything else of this kind is an imitation or counterfeit. Any druggist will procure the genuine if you insist you will have no other.

Sold by all druggists and dealers on Pacific Coast,

MEXICAN MUSTANG LINIMENT.

It is an admitted fact that the Mexican Mustang Liniment performs more cures in shorter time, on man and beast, than any article ever discovered.

No compound has ever been invented so useful and efficacious in curing

RHEUMATISM, STIFF & WEAK JOINTS, BRUISES, SPRAINS, SORE THROAT, BURNS, EAR ACHE, FRESH CUTS OR WOUNDS, SWELLINGS,

Or any other complaints requiring external application.

FOR HORSES,

It is an indispensable and valuable remedy in all cases of Spavin, Splint, Ring-bone, Wind-galls, Bruises, Strains, &c.

It should be kept in every house, camp and stable. Accidents will occur. Promptness is efficacy.

All genuine is wrapped in steel plate engravings, bearing the signature of G. W. Westbrook, Chemist, and the PRIVATE U. S. Stamp of DEMAS BARNES & Co. over the top.

An effort has been made to counterfeit it with a cheap stone plate label. LOOK CLOSELY!

Sold by all Druggists and Stores in every town and mining camp on the Pacific coast.

WEDNESDAY, OCTOBER 21, 1868.

CONFEDERATION—VICTORIA.

Victoria is indeed a study; perhaps not a very attractive or profitable one—more of a warning than a pattern. Its people appear to be chronically, irreclaimably inconsistent, unreasonable, discontented. Political unrest has ever been a prominent trait in their character. Their idol of to-day is the subject of their execration and abuse to-morrow. The first to pronounce for *immediate* Confederation, they are the first to denounce it. Let us look for a moment at the grounds of present opposition. "Nova Scotia," say they, "is in, and is anxious to be out. Let us await the result." At the first blush there does appear to be some reason in the proposition. It is somewhat odd that while we of the extreme west are knocking at the front door for admission, our fellow colonists in the extreme east are clamoring at the back door to get out—declaring their determination to smash the door if it be not opened to them. Without entering into the merits of the alleged grievance of the "Blue-noses," it does not at all follow that the fact of their apparent anxiety to be let out of the Dominion affords good reason why we shouldn't go in. Ireland is just now kicking against the pricks. At what period since the Union did Ireland not kick? Yet who would assign the attitude of Ireland as a reason why we, for instance, should wish to cut the connection? The real question for us to consider is not whether the Blue-noses are kicking up a row with or without good cause? Whether Confederation is good or the reverse for Nova Scotia? What concerns us to know and consider well is whether Confederation would be good for us, and on what conditions? Then, again, these anti-Confederates object to the measure upon another ground, one of a more sentimental character. "We don't want," say they, "to sever our connection with Great Britain; and, above all, we don't want to do so in order to join Canada, a mere colony like ourselves." Who proposes a severance of our connection with Great Britain? Not the Confederates, certainly. We venture to assert that, as a class, they are no less British in feeling and sentiment, than are the "antis." Perhaps we might even go farther than this; but comparisons are said to be odious. But to Confederate is not to become any less British; but, on the contrary, the connection, now weak and unsatisfactory, would be strengthened and consolidated by it. Confederation is Imperial policy. The Queen desires to consolidate all her Possessions and strengthen her interests in North America by this measure; and we could, with far more show of reason, accuse those who oppose Confederation of disloyalty, and of contemplating a dissolution of our connection with the mother country. If Confederation is calculated to consolidate and strengthen, it clearly follows that those who oppose it are willing to weaken and destroy. Manifestly the less the "antis" prate about loyalty and British connection as partaining to their side of the house, the better. We will not call them rebels and Annexationists at heart. Some of them may possibly be honestly zealous for British connection. But if they are, their's must be a zeal without knowledge. Yet some of these people would raise the cry of loyalty [illegible] Chang," as though the movement were really anti-British! Why, has not our gracious Queen been showering honors upon prominent Canadians as a reward for their active services in promoting the measure? Think you will she honor those of her subjects on the Pacific who oppose the completion of it? Let us hear no more of this loyalty and British connection from that side of the house. In truth the boot is on the other leg. A sort of undefinable prejudice against Canadians has its share in the opposition. And it is somewhat singular that at a time when Canada and Canadians stand so high in England, and when Canadian statesmen are working hand in hand with the Imperial Government in maturing a great and glorious *national* measure, some Englishmen in this little one-horse dependency turn up their noses at both. Such conduct is scarcely calculated to raise them in the estimation of an intelligent public. Common sense and a becoming realization of our common position as colonists, would appear to suggest the merging of all such distinctions. We are no longer Englishmen, Irishmen, Scotchmen, Canadians; but we are all British Columbians; and the man who cannot sink such petty class distinctions is not a good colonist. A gentleman of color once remarked, "A white man is as good as a nigger, if he behave himself." So, fitting the proposition to the present occasion, we say, An Englishman is as good as a Canadian, if he behave himself—if he adapt himself to the peculiar conditions inseparable from a new colony. To those who affect to ridicule and despise the proposed new relationship we would simply put the question: Are we more respectable or likely to be more respected in our present position as a weak, isolated, neglected, misgoverned *dependency* of the British Crown than we would be as an important *part* of a new British Dominion, possessing the fullest powers of self-government and yet retaining our connection with the parent state in a stronger, more agreeable, and more enduring form? To the employment of the term "immediate" in the present contest we have not time now fully to address ourselves. But we may be allowed to remark that we suspect the word is being employed in a dishonest way by at least some of the "antis." If by it they mean that they are merely opposed to the admission of British Columbia into the Dominion of Canada until such time as the intervening territory shall have been admitted, and the terms of our own admission carefully, cautiously, and thoroughly discussed, understood, concurred in, negotiated, and ratified, then we say, you are not enemies but true and intelligent friends of the cause. No intelligent patriot would desire earlier admission. No sensible man could expect it. But, if you are honest in this position, be honest and consistent with yourselves and others. One, two, or even three years may be consumed in negotiations and discussions before both parties are ready to place this, the key-stone in the great arch of British power and British freedom in North America. But the possibility of such delay forms no good reason for postponing the preliminary steps. It is rather a reason why discussion and negotiation for admission should commence at once. View the subject in what light we will, we can see no reason in this procrastination policy. If Confederation upon just and proper terms be a good, it surely follows that the sooner we gain admission the better. No one would oppose it more than ourselves upon other than just and proper terms, and with the full, unmistakable, and unequivocal consent, approbation, and desire of a majority of the people. In a matter of this sort there must be no snap-decisions, no entrapping of the people by unreasoning and unprincipled political demagogues.

BURRARD INLET.—Business at the Inlet, as everywhere else, is fog-bound. The ship, Spirit of the Age, still lies at Moody & Co's mills, waiting for clear weather to go out; while the ship, Chandler, from San Francisco, has been lying for several days in English Bay waiting to get in. The Chandler is a large ship of some 800 tons burthen, and will take in a load of lumber at Moody & Co's mills.

WEDNESDAY, OCTOBER 21, 1868.

ANGLICAN MISSIONARY MEETING.

Advantage was taken of the presence in town of the Rev. Mr. Good, Missionary amongst the Thompson River Indians, and Mr. Duncan, of Metlakatlah, to hold a Missionary Meeting, which took place at the Hyack Hall on Monday evening. The Venerable Archdeacon Woods presided. After some appropriate remarks by the Chairman, the Rev. Mr. Good was called upon to address the Meeting. Mr. Good said he had, for the sake of conciseness, committed to writing the few statements he wished to lay before the Meeting. He read a paper which was listened to with much interest. The paper gave an account of the call which he had received from the Thompson Indians to come amongst them and establish a Mission, and gave a brief history of the progress of the work. It also contained some very interesting thoughts as to the probable origin, history and habits of these Indians. Altogether the paper was a very interesting one, although, in our estimation, slightly marred by the introduction of what might be considered as political matter.

Mr. Duncan was next called upon to address the meeting, which he did for over an hour and a quarter, and with very good effect. Mr. Duncan said he experienced great difficulty in delivering a short address upon a subject regarding which so much might be said. He felt at a loss where to begin and where to stop. In the course of his remarks he related many very interesting incidents of Indian life and character, illustrative of their pagan and Christian condition. His description of Metlakatlah and the policy, commercial, moral and religious, he has pursued, was especially interesting, and indicated great discretion, tact, and a thorough knowledge of Indian character. One feature of the system which may be called a sort of Municipal Government, was the Legislative Council, composed of 40 Chiefs, being convened from the various tribes. His account of the organization of this body, and of the dignified demeanour of these Councillors, was highly interesting. Mr. Duncan was at considerable pains to allude to slanderous and unfair reports about the administration of affairs at Metlakatlah, circulated by persons probably unfriendly to the Mission. Mr. Duncan might have saved himself the trouble, as the public generally understand and properly estimate such matters. The meeting on Monday evening, although, perhaps, not so numerously attended as one might have wished, must have proved gratifying to all present who feel an interest in the Indian Missions in this Colony.

YALE ASSIZES.

The Assizes opened on the 13th inst. His Lordship M. B. Begbie, presiding. The Grand Jury having been empanelled, the first case taken up was that of the Queen *vs.* Louis Hautier. The indictment charged with shooting with intent, &c. The Grand Jury ignored the Bill. The Attorney General (with whom Mr. Robertson appeared) rose and stated that without wishing to cast any reflection on the Grand Jury, he thought the case against the accused, as it appeared from the depositions, was such a one as to demand further investigation. In view of the public interests he deemed it his duty to insist—in his capacity of Attorney-General—upon having the accused bound over to plead to any Bill of Indictment that might be found against him at the ensuing Spring Assizes at Yale. Mr. Walkem, who appeared for the accused, opposed the application. After a short argument his Lordship expressed his concurrence in the view of the Attorney-General, and ordered the accused to be bound over in his own recognizance to appear as aforesaid.

The next case was that of the Queen *vs.* Ah Chang. This was a case in which a Chinaman was charged with cutting [illegible] to do grievous bodily harm, an Indian named Satsche-

The Grand Jury found a true bill. The prisoner was defended by Mr. Robertson, and acquitted.

The Queen *vs.* Smelt.—An Indian charged with housebreaking. The Grand Jury found a true bill. The prisoner pleaded guilty, and was sentenced to twelve months' imprisonment with hard labour.

The Queen *vs.* Clahu.—An Indian charged with receiving stolen goods. Grand Jury found a true bill; but petit Jury acquitted.

This concluded the criminal business, and there being no Civil cases, the Court adjourned.

THE ELECTION.

The Election of a Member of the Legislative Council for the District of New Westminster took place at the Court House, in this city, yesterday. At 10 o'clock, a.m., Mr. T. Brew, the Returning Officer, opened the proceedings by announcing that he was ready to receive nominations. Mr. D. Withrow nominated the Hon. John Robson as a fit and proper person to represent the District. Mr. J. C. Armstrong seconded the nomination, and, there being no other candidates proposed, the Returning officer declared Mr. Robson duly elected without opposition.

TO THE ELECTORS OF THE DISTRICT OF NEW WESTMINSTER.

Fellow Colonists—I have just been re-elected without opposition to represent you in the Legislative Council of British Columbia. It is at all times gratifying to a public man to receive such unequivocal proof of the confidence and approbation of his constituents as an unanimous election implies; and it would be little better than affectation were I to deny that I feel gratified by this fresh expression of your confidence. Believe me it not only rewards past services but incites to increased effort in the future. In all probability an arduous and trying Session lies before me, and I shall at all times be glad of any advice or suggestions you may impart. Thanking you for your confidence and support, to retain which shall ever be my highest earthly aim and ambition,

I have the honor to be,

Fellow Colonists,

Your Obedient Servant,

JOHN ROBSON.

New Westminster, Oct. 20, 1868.

Becoming Serious.—This fog question waxeth somewhat serious. The winter season must, in the common course of events, be near, and it is to be feared that the interruption to navigation occasioned by the fog must have interfered with the shipment of winter stocks to the interior. Nothing but rain can clear the atmosphere, and rain is what we have no visible prospect of getting immediately. Very great inconvenience is felt even in the lower country from the interruption of regular communication; and, what renders matters worse, the telegraph line refuses to work, the extensive fires in the forests having destroyed much of it.

From Yale.—The Hon. Mr. Crease, Messrs. A. R. Robertson, C. E. Pooley and Mr. Bisset, of the H. B. co., and the Rev. Mr. Good arrived from Yale in a canoe, on Saturday. The str. Onward had only got up as far as St. Mary's Mission, where the party breakfasted on board. The atmosphere was thick with smoke, and they were obliged to grope their way down along the shore, taking two days to perform the passage. They brought no express, nor mail, nor later newspapers. They report quite a number of passengers waiting at Yale for the steamer to bring them down.

"Knowledge is Power."—Although it has been said there is "Nothing like Capital," yet, where capital is not combined with a thorough knowledge of business, "the best laid schemes o' men—and mice—gang aft aglee." But when both these requisites to success, "Thorough knowledge" and "Ample capital," are combined (as in the case of the Firm of Clute & Clarkson, of this city), the result must be obvious. We refer our readers to their Advertisement in another column

The Lieutenant Governors.—The Victoria *Morning News* publishes an address presented to Lieutenant Governor Wilmot, of New Brunswick, by the Teachers and Scholars of a Wesleyan Methodist Sabbath School, of which Mr. Wilmot had been Superintendent for seventeen years; also the Lieutenant Governor's reply to the same. Our contemporary notices the circumstance that "Of the three Lieut. Governors already appointed, two are Wesleyan Methodists and the other a Roman Catholic." From this we presume Governor Howland, Ontario, is a Methodist.

Small-Pox at the Inlet.—Dr. Black has two cases of Small-pox under treatment at Burrard Inlet—a white man and his son, a half-breed. They are being treated in accordance with the system introduced by Dr. Black, of London, to which allusion was made in our last. We learn that Dr. Black has performed gratuitous vaccination upon 407 whites and Indians at the Inlet. We understand the disease is disappearing both here and there.

Nothing like Capital.—Mr. Cunningham is just now affording a practical illustration of the advantage of doing business with ample capital, and upon the principle of "small profits and quick returns." He has just opened a splendid lot of new goods, amongst which are a choice assortment of French merino and winsey dress goods, in the most fashionable styles and best fabrics. He is selling winseys in the very newest styles at 37½ cts. a yard!

Election Items.—We understand that Mr. J. T. Scott and Mr. Seeley, Editor of the *Sentinel*, are the only two canditates for Cariboo. In the Lillooet District the Hon. M. Walkem will in all probability be elected without opposition. Mr. Walkem goes in on the Confederation ticket. Of the Yale District nothing is yet known here; but we presume the Hon. Mr. Barnard will be re-elected without opposition. From the other Districts we have heard nothing.

Brighton.—We hear that Mr. Hocking, of Brighton, is going to add to all his other improvements by building quite a good and extensive wharf. Such a thing is much needed, and it will add greatly to the prosperity of the place, as it is presumable that with proper accommodation steamers and vessels would regularly land there.

Still in the Fog.—No steamboat nor telegraphic communication has yet been had either with the interior or seawise, so that we are again obliged to appear before our readers without any later news.—We wonder how the outside world wags, since last we heard from it.

Later From Yale.—Judge Begbie and the Hon. Mr. Walkem arrived from Yale yesterday in a canoe. They brought down the Cariboo letter express and mail. The str. Onward was tied up three miles above Harrisonmouth fog-bound.

For Victoria—Tired of waiting for the steamer, a party, consisting of the Hon. Mr. Crease and Messrs. Robertson and Bisset, started for Victoria in a canoe, shortly after noon yesterday.

CANADA STONE AND MARBLE WORKS.

Canada possesses stone and marble works upon a very extensive, grand, and complete scale. These works are near St. Gabriel's Locks, on the Lachine Ship Canal, just outside the city of Montreal. Alexander Somerville, better known in literary circles by the *nom de plume* of the "Whistler at the Plough," has been visiting these works and has sent a graphic and most interesting description of them to the *Montreal Gazette*. We have not room for more than the following reflections into which Mr. Somerville was led in viewing these works:—

"With mankind in this era of Christian Faith, high art has still its refining, refreshing influences. But to-day the creature arrives at conceptions of the transcendent majesty of Jehovah, the living God, which no human genius could evolve or, present to view. The finite being discerns that the very first step beyond the threshold of the universe is impenetrable to human philosophy. Yet, also discerned by every sense, faculty, impulse of soul that the living God is in the universe, on that side, on this, and in constant communion with souls which earnestly, passionately seek and accept the communion.

How powerless, poor, the most superb chiselling of Phidias fill the hungred heathen contrasted with the sublime faith, the ecstacy of spiritual consciousness with which the Christian's soul is filled at the fountains of Divine Love—fountains never dry, always running!

But amongst the precious natural gifts with which the Divine Being has endowed humanity, not the smallest is the mental faculty which derives joy from beautiful objects. It is that which impels other faculties to action—to design, shape, and change crude matter to forms of comliness, graceful eleganee, ideal beauty.

Reverting to Montreal and the marble mills.

The huge, unshapely masses of crude material vary from two to three, four to five feet in diameter, but seldom with a plane of surface on any side. The worst shaped potato ever dug from the field or ughest toad squating by a pool are not more unlovely in form than some of those marble blocks from which are to be, or may be, evolved objects of beauteous form which to look upon will be a delight perhaps for hundreds or thousands of years to come; a delight to the eye and to the mind, a joy through far-off generations—to a posterity which may look at the earlier years of the dominion of Canada and on Montreal city as this generation looks back to the English heptarchy or to the Greece of two thousand years before; but with this difference, Montreal may expand and rise, in all likelihood will rise to be the north-eastern metropolis to that mighty North-West which shall build the central capital of the continent on the margin of Lake Superior. This grand destiny for the city now lying at the foot of Mount Royal is one of the problems of futurity hardly doubtful. "Athens?" you say. Look at the decay of Athens, at the degeneracy of Greece, at the extinction of all the great nations of antiquity!" The philosophical response is, that no nation of antiquity possessed the elements of duration of perennial youth, or of manhood, therefore they died out. For a river Athens had a driblet called Ilyssus, a winter torrent sung of by Sappho and other love poets because of nightingales on its banks, yet not deep enough to drown her when to cool her burning passion Sappho leapt from this cliff. Ilyssus was a mere ditch in summer, not half the volume of the Montreal Waterworks tail race. In July, 1835, the late Richard Cobden, then a young man, stood on the bluffs where "burning Sappho loved and sang" and beheld another young Englishman in the garments of a Quaker, they not then personally known to each other, making running leaps from one bank of Ilyssus to the other. The Quaker was John Bright. Think of that classic driblet, and of the sublime Ganardaga of Indian ages, St. Lawrence of this day, elder brother of the world's imperial rivers! Internal revolutions there may be, but the sciences will survive; so will constitutional representative government and a free press; a free, soul-exalting, holy faith scientific revelation of Dicty in all physical nature; a political economy, of which the widest diffusion among all the people of the elements of social happiness shall be a dominating principle. These will survive. These are the life of the States. The nations of antiquity knew them not, therefore perished. The human, moral, life of the world is yet in childhood.

Bring in, swing aloft, press along, let down, saw, chisel, shape, polish the marbles and granites of the Montreal Monumental Mills. Set up in every church, churchyard, cemetery, house of legislature, courts of justice, public hall, and market place in the dominion. Subscribe for posterity to read the names and virtues of the friends you love. Commit to marble the lineaments of families, statesmen, clergy judges, men of science, and patriots; also poets should Canada ever have any. These ripened by age, will become precious in the far away ages yet to c[illegible]

ALL OVER

The world people of sense and judgment have learned to use

PLANTATION BITTERS.

Dyspepsia, with its symptoms, Headache, Heartburn, Feverish Lips, Bad Breath, Sallow Complexion, &c., can be cured by using Plantation Bitters.

This is the most successful tonic of the age. Young, middle-aged and old, are delighted with its effects.

The first trial always has a marked good effect.

No change of diet is necessary. Eat all you wish, of the best and most nutritious food.

It is the greatest cure ever known for an overloaded and distressed stomach, which it relieves in a few moments.

We know that we have the best and most popular medicine in the world. We are not afraid to show what it is composed of.

Physicians are compelled to recommend it.

Calisaya Bark has been celebrated for over two hundred years, and was sold during the reign of Louis XVI, King of France, for the enormous price of its own weight in silver. It is remarkable for Dyspepsia, Fevers, Weakness, Constipation, &c.

Cascarilla Bark.—For Diarrhea, Colic, and diseases of the stomach and bowels.

Dandelion.—For inflammation of the Loins and Dropsical Affections.

Chamomile Flowers.—For enfeebled digestion.

Lavender Flowers.—Aromatic, stimulant and tonic—highly invigorating in nervous debility.

Wintergreen.—For Scrofula, Rheumatism, &c.

Anise.—An aromatic carminative; creating flesh, muscle and milk; much used by mothers nursing.

Also clove-buds, orange, caraway, coriander, snake-root, &c.

S.T-1860-X.

Another wonderful ingredient, of Spanish origin, imparting beauty to the complexion and brilliancy to the mind, is yet unknown to the commerce of the world, and we withhold its name for the present.

With this recipe before the community, and evidences of effects meeting them on all side, the success of Dr. Drake stands founded upon the rock of truth. Almost every family has some case of suffering which the Plantation Bitters will alleviate and cure.

They are recommended by the highest medical authorities, and are warranted to produce an immediate beneficial effect. They are exceedingly agreeable, perfectly pure and harmless.

Notice.—Any person pretending to sell Plantation Bitters in bulk or by the gallon, is a swindler and imposter. It is put up only in one, log cabin bottle. Beware of bottles refilled with imitation deleterious stuff, for which several persons are already in prison. See that every bottle has our United States stamp over the cork unmutilated, and our signature on steel plate label.

Sold by respectable dealers throughout the habitable globe.

P. H. Drake & Co., New York, Sole Proprietors.

Redington & Co., San Francisco. Agents for California and Nevada.

MEXICAN MUSTANG LINIMENT.

The merits of this Liniment are well known. Its effects are instantaneous, soothing, and wonderful.

Cuts, bruises, sprains and swellings, are so common, and certain to occur in every family, that a bottle of this Liniment is the best investment that can be made.

It is more certain than the doctor—it saves time in sending for the doctor—it is cheaper than the doctor, and should never be dispensed with.

READ THE FOLLOWING.

"I take pleasure in recommending the Mexican Mustang Liniment as a valuable and indispensable article for Sprains, Sores, Scratches, or Galls on horses. Our men have used it for Burns, Bruises, Sores, Rheumatism, &c., and all say it acts like magic. J. W. Hewitt, Foreman for Amer'n, Wells, Fargo's & Harnden's Express

"The sprain of my daughter's ankle, occasioned while skating last winter, was entirely cured in one week after she commenced using your celebrated Mustang Liniment." Ed. Seelt.

Gloucester, Mass., Aug. 1, 1865.

Quick and sure it certainly is. All genuine is wrapped in steel plate engravings, bearing the signature of G. W. Westbrook, Chemist, and the Private U. S. stamp of Demas Barnes & Co., over the top.

An effort has been made to counterfeit it with a cheap stone plate label. Look Closely!

Sold by all Druggists and Stores, @ 25 & 50cts. and $1.

se22

LYON'S FLEA POWDER.

It is well known that Lyon's genuine Magnetic Powder will perfectly destroy everything in the shape of fleas, ticks, bedbugs, roaches, &c.; that it is perfect poison to the insect tribe, but entirely harmless to the human species and domestic animals.

Bedbugs, Roaches, Ants, etc., are in every house. This Powder is their natural death. It should be in every cupboard.

John L. Rose, Esq., Superintendent of the New York City Hospital, says: * * * "It is the only SURE article we have ever used."

New York Hotel Proprietors say: "We have used

LYON'S MAGNETIC POWDER

for exterminating insects and vermin, with entire satisfaction.

COLEMAN & STETSON, Astor House.
S. T. COZZENS, American Hotel.
ACKER & TREADWELL, St. Nicholas Hotel.
S. LELAND & CO., Metropolitan Hotel."

Testimony of this character might be added to any length. Wherever it is used it advertises itself.

The genuine has the signature of E. LYON, and the private stamp of DEMAS BARNES & Co. Anything else of this kind is an imitation or counterfeit. Any druggist will procure the genuine if you insist you will have no other.

Sold by all druggists and general storekeepers in every town and mining camp on the Pacific Coast.

A CARD.

The Hyack Fire Company beg to return their sincere thanks to the Imperial and Royal Insurance Companies for their liberal donation of Twenty-five Dollars each to the funds of the Company, and also for their renewed expression of confidence in the efficiency of the New Westminster Fire Department.

WM. FISHER, Captain Hyack Co.,
WM. JOHNSTON, Chief Engineer, New Westminster Fire Department.

To W. L. Armstrong, Agent Imperial Fire Co.

AYER'S

MEDICINES.

THE peculiar taint or infection which we call SCROFULA lurks in the constitutions of multitudes of men. It either produces or is produced by an enfeebled, vitiated state of the blood, wherein that fluid becomes incompetent to sustain the vital forces in their vigorous action, and leaves the system to fall into disorder and decay. The scrofulous contamination is variously caused by mercurial disease, low living, disordered digestion from unhealthy food, impure air, filth and filthy habits, the depressing vices, and, above all, by the venereal infection. Whatever be its origin, it is hereditary in the constitution, descending "from parents to children unto the third and fourth generation;" indeed, it seems to be the rod of Him who says, "I will visit the iniquities of the fathers upon their children." The diseases it originates take various names, according to the organs it attacks. In the lungs, Scrofula produces tubercles, and finally Consumption; in the glands, swellings which suppurate and become ulcerous sores; in the stomach and bowels, derangements which produce indigestion, dyspepsia, and liver complaints; on the skin, eruptive and cutaneous affections. These, all having the same origin, require the same remedy, viz., purification and invigoration of the blood. Purify the blood, and these dangerous distempers leave you. With feeble, foul, or corrupted blood, you cannot have health; with that "life of the flesh" healthy, you cannot have scrofulous disease.

Ayer's Sarsaparilla

is compounded from the most effectual antidotes that medical science has discovered for this afflicting distemper, and for the cure of the disorders it entails. That it is far superior to any other remedy yet devised, is known by all who have given it a trial. That it does combine virtues truly extraordinary in their effect upon this class of complaints, is indisputably proven by the great multitude of publicly known and remarkable cures it has made of the following diseases: **King's Evil, or Glandular Swellings, Tumors, Eruptions, Pimples, Blotches and Sores, Erysipelas, Rose or St. Anthony's Fire, Salt Rheum, Scald Head, Coughs from tuberculous deposits in the lungs, White Swellings, Debility, Dropsy, Neuralgia, Dyspepsia or Indigestion, Syphilis and Syphilitic Infections, Mercurial Diseases, Female Weaknesses,** and, indeed, the whole series of complaints that arise from impurity of the blood. Minute reports of individual cases may be found in AYER'S AMERICAN ALMANAC, which is furnished to the druggists for gratuitous distribution, wherein may be learned the directions for its use, and some of the remarkable cures which it has made when all other remedies had failed to afford relief. Those cases are purposely taken from all sections of the country, in order that every reader may have access to some one who can speak to him of its benefits from personal experience. Scrofula depresses the vital energies, and thus leaves its victims far more subject to disease and its fatal results than healthy constitutions. Hence it tends to shorten, and does greatly shorten, the average duration of human life. The vast importance of these considerations has led us to spend years in perfecting a remedy which is adequate to its cure. This we now offer to the public under the name of AYER'S SARSAPARILLA, although it is composed of ingredients, some of which exceed the best of *Sarsaparilla* in alterative power. By its aid you may protect yourself from the suffering and danger of these disorders. Purge out the foul corruptions that rot and fester in the blood, purge out the causes of disease, and vigorous health will follow. By its peculiar virtues this remedy stimulates the vital functions, and thus expels the distempers which lurk within the system or burst out on any part of it.

We know the public have been deceived by many compounds of *Sarsaparilla*, that promised much and did nothing; but they will neither be deceived nor disappointed in this. Its virtues have been proven by abundant trial, and there remains no question of its surpassing excellence for the cure of the afflicting diseases it is intended to reach. Although under the same name, it is a very different medicine from any other which has been before the people, and is far more effectual than any other which has ever been available to them.

AYER'S

CHERRY PECTORAL,

The World's Great Remedy for Coughs, Colds, Incipient Consumption, and for the relief of Consumptive patients in advanced stages of the disease.

This has been so long used and so universally known, that we need do no more than assure the public that its quality is kept up to the best it ever has been, and that it may be relied on to do all it has ever done.

Prepared by DR. J. C. AYER & Co., *Practical and Analytical Chemists,* Lowell, Mass.

Sold by all druggists every where.

ADDRESS

TO THE

NERVOUS AND DEBILITATED

WHOSE

SUFFERINGS HAVE BEEN PROTRACTED,

AND WHOSE CASES

REQUIRE PROMPT TREATMENT TO RENDER EXISTENCE DESIRABLE.

If you are suffering have suffered, what effect does it produce upon your general health?

Do you feel weak, debilitated, easily tired?

Does a little extra exertion produce palpitation of the heart?

Does your liver, urinary organs, or your kidneys, frequently get out of order?

Is your urine sometimes thick, milky or flocky, or is it ropy on settling?

Or does a thick scum rise to the top?

Or is a sediment at the bottom after it has stood awhile?

Do you have spells of short breathing or dyspepsia?

Are your bowels constipated?

Do you have spells of fainting or rushes of blood to the head?

Is your memory impaired?

Is your mind constantly dwelling on this subject?

Do you feel dull, listless, moping, tired of company, or of, life?

Do you wish to be left alone, to get away from everybody?

Does any little thing make you start or jump?

Is your sleep broken or restless?

Is the lustre of your eye as brilliant?

The bloom on your cheek as bright?

Do you enjoy society as well?

Do you pursue your business with the same energy?

Are your spirits dull and flagging, given to fits of melancholy? If so, do not lay it to your liver or dyspepsia.

Have you restless nights? Your back weak, your knees weak, and have but little appetite and you attribute this to dyspepsia or liver complaint?

NOW, READER,

DISEASES BADLY CURED, AND EXCESSES,

Are capable of producing a weakness of the generative organs. The organs of generation when in perfect health, make the man. Did you ever think that those bold, defiant, energetic, persevering, successful business men are always those whose generative organs are in perfect health? You never hear such men complain of being melancholy, of nervousness, of palpitation of the heart. They are never afraid they cannot succeed in business; they don't become sad and discouraged; they are always polite and pleasant in the company of ladies, and look you and them right in the face—none of your downcast looks, or any other meanness about them. I do not mean those who keep the organs inflamed by running into excess. These will not only ruin their constitutions, but also those they do business with or for.

How many men, from badly-cured diseases and excesses, have brought about that state of weakness in those organs that has reduced the general system so much as to induce almost every other form of disease—idiocy, lunacy, paralysis, spinal affections, suicide, and almost every other disease which humanity is heir to, and the real cause of the trouble never suspected, and have doctored for all but the right one?

Diseases of this sort require a Diuretic.

HELMBOLD'S

FLUID EXTRACT BUCHU IS THE

GREAT DIURETIC,

AND IS

A CERTAIN CURE FOR

Diseases of the Bladder, Kidneys, Gravel, Dropsy, Organic Weakness, Female Complaints, General Debility,

AND ALL DISEASES OF THE

URINARY ORGANS,

whether existing in male or female,

From whatever Cause originating, and no matter of how long standing.

☞ If no treatment is submitted to, CONSUMPTION or INSANITY may ensue. Our flesh and blood are supported from these sources, and the heath and happiness, and that of posterity, depends upon prompt use of a reliable remedy.

Ayer's SARSAPARILLA,

THE WORLD'S GREAT REMEDY FOR

Scrofula and Scrofulous Diseases.

From Emery Edes, a well-known merchant of Oxford, Maine.

"I have sold large quantities of your SARSAPARILLA, but never yet one bottle which failed of the desired effect and full satisfaction to those who took it. As fast as our people try it, they agree there has been no medicine like it before in our community."

Eruptions, Pimples, Blotches, Pustules, Ulcers, Sores, and all Diseases of the Skin.

From Rev. Robt. Stratton, Bristol, England.

"I only do my duty to you and the public, when I add my testimony to that you publish of the medicinal virtues of your SARSAPARILLA. My daughter, aged ten, had an afflicting humor in her ears, eyes, and hair for years, which we were unable to cure until we tried your SARSAPARILLA. She has been well for some months."

From Mrs. Jane E. Rice, a well-known and much-esteemed lady of Dennisville, Cape May Co., N. J.

"My daughter has suffered for a year past with a scrofulous eruption, which was very troublesome. Nothing afforded any relief until we tried your SARSAPARILLA, which soon completely cured her."

From Charles P. Gage, Esq., of the widely-known Gage, Murray & Co., manufacturers of enamelled papers in Nashua, N. H.

"I had for several years a very troublesome humor in my face, which grew constantly worse until it disfigured my features and became an intolerable affliction. I tried almost every thing a man could of both advice and medicine, but without any relief whatever, until I took your SARSAPARILLA. It immediately made my face worse, as you told me it might for a time; but in a few weeks the new skin began to form under the blotches, and continued until my face is as smooth as any body's, and I am without any symptoms of the disease that I know of. I enjoy perfect health, and without a doubt owe it to your SARSAPARILLA."

Erysipelas—General Debility—Purify the Blood.

From Dr. Robt. Sawin, Houston St., New York.

"DR. AYER. I seldom fail to remove *Eruptions* and *Scrofulous Sores* by the persevering use of your SARSAPARILLA, and I have just now cured an attack of *Malignant Erysipelas* with it. No alterative we possess equals the SARSAPARILLA you have supplied to the profession as well as to the people."

From J. E. Johnston, Esq., Wakeman, Ohio.

"For twelve years, I had the yellow Erysipelas on my right arm, during which time I tried all the celebrated physicians I could reach, and took hundreds of dollars worth of medicines. The ulcers were so bad that the cords became visible, and the doctors decided that my arm must be amputated. I began taking your SARSAPARILLA. Took two bottles, and some of your PILLS. Together they have cured me. I am now as well and sound as any body. Being in a public place, my case is known to every body in this community, and excites the wonder of all."

From Hon. Henry Monro, M. P. P., of Newcastle, C. W., a leading member of the Canadian Parliament.

"I have used your SARSAPARILLA in my family, for general *debility*, and for *purifying the blood*, with very beneficial results, and feel confidence in commending it to the afflicted."

St. Anthony's Fire, Rose, Salt Rheum, Scald Head, Sore Eyes.

From Harvey Sickler, Esq., the able editor of the Tunkhannock Democrat, Pennsylvania.

"Our only child, about three years of age, was attacked by pimples on his forehead. They rapidly spread until they formed a loathsome and virulent sore, which covered his face, and actually blinded his eyes for some days. A skilful physician applied nitrate of silver and other remedies, without any apparent effect. For fifteen days we guarded his hands, lest with them he should tear open the festering and corrupt wound which covered his whole face. Having tried every thing else we had any hope from, we began giving your SARSAPARILLA, and applying the iodide of potash lotion, as you direct. The sore began to heal when we had given the first bottle, and was well when we had finished the second. The child's eyelashes, which had come out, grew again, and he is now as healthy and fair as any other. The whole neighborhood predicted that the child must die."

Syphilis and Mercurial Disease.

From Dr. Hiram Sloat, of St. Louis, Missouri.

"I find your SARSAPARILLA a more effectual remedy for the secondary symptoms of *Syphilis* and for syphilitic disease than any other we possess. The profession are indebted to you for some of the best medicines we have."

From A. J. French, M. D., an eminent physician of Lawrence, Mass., who is a prominent member of the Legislature of Massachusetts.

"DR. AYER. My dear Sir: I have found your SARSAPARILLA an excellent remedy for *Syphilis*, both of the *primary* and *secondary* type, and effectual in some cases that were too obstinate to yield to other remedies. I do not know what we can employ with more certainty of success, where a powerful alterative is required."

Mr. Chas. S. Van Liew, of New Brunswick, N. J., had dreadful ulcers on his legs, caused by the abuse of mercury, or *mercurial disease*, which grew more and more aggravated for years, in spite of every remedy or treatment that could be applied, until the persevering use of AYER'S SARSAPARILLA relieved him. Few cases can be found more inveterate and distressing than this, and it took several dozen bottles to cure him.

Leucorrhœa, Whites, Female Weakness, are generally produced by internal *Scrofulous Ulceration*, and are very often cured by the alterative effect of this SARSAPARILLA. Some cases require, however, in aid of the SARSAPARILLA, the skilful application of local remedies.

From the well-known and widely-celebrated Dr. Jacob Morrill, of Cincinnati.

"I have found your SARSAPARILLA an excellent alterative in diseases of females. Many cases of Irregularity, Leucorrhœa, Internal Ulceration, and local debility, arising from the scrofulous diathesis, have yielded to it, and there are few that do not, when its effect is properly aided by local treatment."

A lady, unwilling to allow the publication of her name, writes:

"My daughter and myself have been cured of a very debilitating Leucorrhœa of long standing, by two bottles of your SARSAPARILLA."

Rheumatism, Gout, Liver Complaint, Dyspepsia, Heart Disease, Neuralgia, when caused by *Scrofula* in the system, are rapidly cured by this EXT. SARSAPARILLA.

AYER'S

CATHARTIC PILLS

possess so many advantages over the other purgatives in the market, and their superior virtues are so universally known, that we need not do more than to assure the public their quality is maintained equal to the best it ever has been, and that they may be depended on to do all that they have ever done.

Prepared by J. C. AYER, M. D., & Co., Lowell, Mass., and sold by

MOORE & Co., Agents, Victoria, V. I. Sold by H. W. SMITH and DR. JONES, New Westminster, and by every dealer in the Colony.

ADVICE GRATIS!

HOLLOWAY'S PILLS

To Purify the Blood.

These Pills have been placed by the common consent of mankind at the head of all remedies for removing obnoxious poisons from the blood, and cleansing all the tissues of the body. They have saved thousands year after year from falling a sacrifice to the effects of dyspepsia, dysentary, diarrhœa, constipation, liver complaints, &c., a fact attested by myriads of witnesses. Excessive weakness and debility the warnings of decreasing organic energy and vital decay, are restored and reanimated with vigor and healthful action in every organ throughout the system, by the restorative and exhilirating influence of this medicine.

Female Complaints.

All disorders of the sex, and diseases in every crisis perilous to the life and health of woman, youthful or aged, married or single, may be radically and quickly cured without risk or trouble, by a few doses of these Pills, taken according to the printed directions.

Indigestion with languor and want of energy.

When taking these Pills, rub Holloway's celebrated Ointment over the pit of the stomach, and over the region of the liver, on the right side under the ribs, and you will at once experience a change for the better in your digestion, spirits, appetite, strength, and energy. The improvement, though it may be gradual, will be thorough and lasting.

DROPSY.

The efficacy of Holloway's Pills in dropsy is extraordinary. They act with such peculiar effect upon the system, that the fluids arising from this direful disease are imperceptibly carried off and prevented from any further accumulation. The sufferer regains a buoyancy of spirits and rejoices in a completely renovated constitution; but it is indispensably necessary that the Ointment should be most effectually rubbed into the complaining parts.

Stomach, Liver, Kidneys and Bowels.

Those who suffer from bile and liver complaints, should try the effects of this valuable remedy, a few doses of which will make the sufferer feel elastic and vigorous, removing all impurities, giving a healthy action to the liver; if bilious attacks be allowed to continue, serious casualties may arise, and the sufferer be consigned to a bed of sickness. In all disorders of the kidneys, the Ointment should be well rubbed into the small of the back, once or twice a day, and the Pills taken in unison, will cure any complaints arising from these organs.

Puffy,—Shortness of Breath with Weakness.

Very bad symptoms, which if not corrected, may tend to some serious disorders of the heart, or other vital organs. Eat moderately of solids, take six Pills nightly for some little time; take plenty of fresh air with moderate exercise, and the human machinery will be quickly restored to health and vigor. Try this but for three days only, and the result will be marvellous.

Complaints incident to Children.

All complaints of children may soon be cured if care be taken to, purify, their blood, correct the action of the liver, and cleanse the stomach and bowels: a few doses of these famous Pills will immediately have the desired effect, particularly if parents be careful in not allowing them to eat of things which they know would be injurious to themselves.

Holloway's Pills are the best remedy known in the world for the following diseases:—

Ague,	Female Irregularities,	Scrofula, or King's Evil,
Asthma,	Fevers of all kinds,	Sore Throats,
Bilious Complaints,	Fits,	Stone and Gravel,
Blotches on the Skin,	Gout,	Secondary Symptoms,
Bowel Complaints,	Head-ache,	Tic-Douloureux,
Colics,	Indigestion,	Tumours,
Constipation of the Bowels,	Inflammation,	Ulcers,
Consumption,	Jaundice,	Venereal Affections,
Debility,	Liver Complaints,	Worms of all kinds,
Dropsy,	Lumbago,	Weakness from whatever cause,
Dysentery,	Piles,	&c., &c.
Erysipelas,	Rheumatism,	
	Retention of Urine,	

Sold at the establishment of PROFESSOR HOLLOWAY, 244, Strand, (near Temple Bar) London; also by all respectable Druggists and Dealers in Medicines throughout the civilized world, at the following prices:—1s. 1½d., 2s. 9d., 4s. 6d., 11s. 22s., and 33s., each Box.

*** There is a considerable saving by taking the larger sizes.

N. B.—Directions for the guidance of patients in every disorder are affixed to each box.

CURE IS AT HAND!

HOLLOWAY'S OINTMENT

Scorbutic Eruptions, as Sore Heads and Scrofulous Swellings.

If this powerful Ointment be well rubbed into the parts affected, all skin disease will be speedily overcome. It acts not by repression, but repulsion. It enters the system as salt enters meat, and operates not locally only, but constitutionally purifying the whole system, neutralizing all depraved humours, and affecting a radical and complete cure. The Pills should be taken as an auxiliary to the Ointment, as they are so prepared as to act in unison with it, facilitating and confirming the conquest of the disease.

Diptheria, Ulcerated Sore Throat and Quinsey.

The above complaints have for twenty years been treated with Holloway's Ointment and Pills with complete success. The cures have been so remarkable, speedy and numerous, that these often fatal diseases are more easily cured by these medicines, than even the common sore throat, if taken in time.

The Kidneys, Stone and Gravel.

In these complaints, the Ointment almost acts like a charm, providing it is very effectually rubbed over the regions of the kidneys, which it will penetrate and give almost immediate relief, while the Pills should be taken according to the printed directions, when the most extraordinary cures may be effected by this means.

Bad Legs, Bad Breasts, Scrofulous Sores, and Glandular Swellings.

In such cases the Ointment operates surely and with a rapidity that resembles magic. It should be rubbed into the parts affected, after they have been fomented with lukewarm water. The purifying and curative powers of this marvellous unguent have never failed. Any old sore, wound or ulcer always yields to its influence, and in cases of bad breasts, or milk fevers, its action is wonderful, glandular swellings may soon be reduced by following the printed directions.

The Action of the Heart, Dropsy.

The last named disease is commonly preceded by irregular action of the heart, and difficult respiration; which symptoms are always severe, and ever go from bad to worse, unless proper means of cure are resorted to. In Holloway's unrivalled Ointment and Pills the dropsical patient will ever find succour; the present relief derived from the use of these remedies is marvellously quick, and perseverance in the application of this famous Ointment, invariably results in a cure. They act with such energy on the circulation and absorbent system, that the dropsical fluid vanishes, and the sufferer finds all the oppressive symptoms daily decline, till natural health returns.

Gout and Rheumatism.

May be cured with the greatest certainty if large quantities of the Ointment be well worked into the complaining parts, and this perseveringly done for some time. It is no use to smear it on the skin only, it must be got into the system. Take as many Pills nightly as will act two or three times during the 24 hours; eschew the use of coffee, and all stimulants. When these complaints are leaving the system, the virulence of the complaint frequently seems to increase.

Indiscretion of Youth.

Sores, ulcers and swellings can with certainty be cured if this Ointment be thoroughly rubbed all round the complaining parts twice or thrice a day, keeping them covered with linen rag spread with the same.

The Pills must be taken according to the printed directions. The blood being in an impure state, perseverance is necessary. From humane motives letters of advice will be answered gratuitously. To save carriage the Pills should be obtained in the neighborhood of the sufferer, and not from Holloway's Establishment.

Both the Ointment and Pills should be used in the following cases:—

Bad Legs,	Chapped hands,	Scalds,
Bad Breasts,	Contracted and Stiff Joints,	Sore Nipples,
Burns,	Elephantiasis,	Sore-throats,
Bunions,	Fistulas,	Skin-diseases,
Bite of Mosquitoes and Sand-flies,	Gout,	Scurvy,
Coco-bay,	Glandular Swellings,	Sore-heads,
Chiego-foot,	Lumbago,	Tumors,
Corns (soft),	Piles,	Ulcers,
Cancers,	Rheumatism,	Wounds,
Chilblains,		Yaws.

Sold at the establishment of PROFESSOR HOLLOWAY, 244, Strand, (near Temple Bar) London; and by all respectable Druggists and Dealers in Medicines throughout the civilized world, at the following prices:—1s. 1½d., 2s. 9d., 4s. 6d., 11s., 22s., and 33s., each Pot.

*** There is a considerable saving by taking the larger sizes.

N. B.—Directions for the guidance of patients in every disorder are affixed to each Pot. 1y old
